

Specification

Compact Exhaust Nozzle 805 Series

The 805 series vehicle exhaust extraction nozzle shall be the type supplied by Nederman, Inc. It shall be constructed of 11 gauge metal for use where high temperatures are encountered and be of a small compact design. The nozzle shall have a 6.25" exhaust diameter opening. It shall be equipped with the spring loaded shutoff flap which will seal off intake into the nozzle when not in use.

The nozzle mouth shall have a round opening which will accommodate vehicle exhaust pipes not to exceed 5" in diameter. It shall be zinc coated to prevent corrosion.

The Compact Exhaust Nozzle, Series 805, warranty shall be for a period of one year from date of shipment from Nederman, Inc.
