

Specification

Metal Exhaust Nozzle 861 Series

The 861 series vehicle exhaust extraction nozzle shall be the type supplied by Nederman, Inc. It shall be constructed of 11 gauge metal for use where high temperatures are encountered. The nozzle shall have a 3" exhaust diameter opening. It shall be equipped with a spring loaded shutoff flap which will seal off intake into the nozzle when not in use.

The nozzle shall be used on single tail pipes, not to exceed 3" in diameter. It shall be zinc coated to prevent corrosion and shall include a probe port for exhaust analysis while the nozzle is attached to the tail pipe.

The Metal Exhaust Nozzle, Series 861, warranty shall be for a period of one year from date of shipment from Nederman, Inc.

Nozzle Model No.	Diameter Hose	Weight
