## Round Exhaust Nozzle 803 Series

The 803 series vehicle exhaust extraction nozzle shall be the type supplied by Nederman, Inc. It shall be constructed of heavy duty EPDM rubber which shall reduce surface heat build up on the nozzle and protect the vehicle from scrapes or paint damage.

The nozzle shall be secured to the vehicle by a fully adjustable, quick release locking clamp which will ensure positive attachment to vehicle exhaust pipe. A built in guard screen shall prevent debris from being drawn into the exhaust system. The nozzle shall have a flexible metal heat shield hose attached which will slide into the exhaust hose, to reduce temperature strain on the lower portion of the exhaust hose.

The nozzle shall resist temperatures of up to 175° F continuously and up to 325° F intermittently. The nozzle mouth shall be round and have a 6.25" diameter opening which will accommodate vehicle exhaust pipes up to 5" in diameter. The nozzle will have a rubber flap that can seal off the intake when not in use.

The Round Exhaust Nozzle, Series 803, warranty shall be for a period of one year from date of shipment from Nederman, Inc.

Nozzle Model No.	Diameter	Hose	Weight
20803161	4"		8.4 lbs.
20803261	5"		9.9 lbs.
20803361	6"		9.7 lbs.
