

CASE STUDY

ZDAS a.s.
Žďár nad Sázavou – Czech Republic

Customer problems:

ZDAS a.s. is the worldwide producer of big cast found and one of the biggest machine industries in Czech Republic. They had many problems with working environment and a lot of iron dust, welding fumes etc.

NEDERMAN CR installed from 2001 to end 2002:

Welding 8 x 2000 m³/h (75 % using) – 2 x FilterMax 6000 with NCF 120/25, automatic flaps

Welding 8 places and cleaning – 1 x E-PAK 500, TAV, with BA arms

Grinding and cleaning 12 places – 1 x VAC 20 – 1500 with Flex Filter, TAV for pneumatic tools

Welding 8 x 2000 m³/h (75 % using) – 2 x FilterMax 6000 with NCF 120/25 (1 control box), automatic flaps

Grinding 5 places and cleaning – 1 x E-PAK 1000 AS, TAV + special reel for high frequency grinding tools or pneumatic tools

We all hope that our installations in this firm will continue in this year.
