

N3 Fan with Filter

The unit consists of a separate filter cartridge and a N3. It is designed for extraction and filtration of fumes and vapours emitted when soldering, gluing or working with solvents. For use in different combinations with the FX arms or the Down Flow Grille FD 23.

- Easy to install
- The Filter Cartridge Standard consists of particle, HEPA and gas filter
- The Filter Cartridge Gas is a pure carbon filter
- The filter cartridges are disposable and easy to change
