

# Pipe Couplers

## Pipe couplers for extending pipes in a fast and simple way

Nederman Pipe Couplers

### Pure and functional design

The new improved Nederman High Vacuum pipe coupler consists of a metal clamp with two adjustment screws and a rubber insert. Due to the conductive rubber insert you no longer have to use any separate grounding wires. You will automatically create a conductive pipe system and at the same time remove the risk of static electricity. Mounting the pipe system is made easier since the pipe coupler is delivered in one complete piece. Quick and safe!

- Easy and quick to connect/disconnect
- No build-up of static electricity

### Pipe coupler

The Nederman pipe coupler is available in the following dimensions:

- Ø 63 mm / 2.48 in.
- Ø 76 mm / 2.99 in.
- Ø 100 mm / 4.02 in.
- Ø 127 mm / 5.00 in.
- Ø 150 mm / 5.98 in.
- Ø 200 mm / 7.87 in.

Model	Part no.
Coupling pipe 63 mm	40139350
Coupling pipe 76 mm	40139420
Coupling pipe 102mm	40139370
Coupling pipe 127 mm	40139410
Coupling pipe 152 mm	40139360
Coupling pipe 203 mm	40139400

### Technical Data

#### Material

- Clamp:** Steel  
**Insert:** Conductive EPDM-rubber
